Welcome to another issue of eBiz EYE. This one is a little different from past issues.

In the previous issue (March), I described 5 resources that can add value to your online business, whatever form that is.

In this issue, I'm going to mention another two really good resources - and they're FREE!

Info-product creation and publishing is fascinating stuff, and whatever your circumstances right now, this is one way to get additional income. If you're side-stepping what self-publishing could do for you, throw caution to the wind and just get cracking.

Now it's time for me to get cracking! Let's get going ...

## Clippings

An apology ... the March issue about the Public Domain contained a broken link to an article on the NTHB Blog. Here's the correct link.

[Use Public Domain material to build an ebook empire.](#)

This is just another way how you can add an additional income stream to your digital info-product library.

And whilst we're on the Public Domain, I'm getting together an extensive report on how to use it to great advantage

## RECENT BLOG ARTICLES

[Work At Home Realities](#)

[Self-Publishing The Proven Way](#)

[On Private Label Rights](#)

[The Power Of Habits And Repetition](#)

[Protect Your Blog From Hackers](#)

## Resources

It can be very useful to see what other online businesses are doing. We can learn and we can share good stuff.

So here are two more sites that I think you'll benefit from. Sometimes these sites may not have much to interest you, but other times there are some real gems ... and of course, they're free.

[Orbit Media](#)

And one of my "secret" sites ... but it's only for Mac lovers. Sorry Windows guys!

[MacMost](#) (a cornucopia of tools and methods for anything Mac). It's free, and most (if not all) of the tools are on your Mac.

## Publications

These are the NTHB info-products I've created in the past few years; they are all in various marketplaces.

You can do it, too. Just learn, follow a proven method, and keep creating info-products.

MAP YOUR GOALS GUIDE ... WITH WORKSHEETS

BRING ON NEW TIMES

WRITE TO PROSPER

NEW TIMES HOME BIZ BOOSTER PACK

eBIZ EYE ON PRIVATE LABEL RIGHTS

eBIZ EYE ON WORKING FROM HOME

eBIZ EYE ON 100 INFO-PRODUCT CREATION IDEAS (free)

YOUR eBook BIZ (free, but will soon have a paid version)

THINK SMART (free, but will soon have a paid version)

CREATE AN eBook IN 5 DAYS ... EARN FROM IT FOR LIFE (free, but will soon have a paid version)

30 ESSENTIAL STRATEGIES AND 30 PRODUCT SELLING IDEAS FOR A SUCCESSFUL ONLINE BUSINESS (free and has PLR)

And there's more to come.

I haven't linked any of these products because they can easily be found in the NTHB Store and Bookshelf.

Each of the **free** info-products that will be converted to paid versions are destined for Kindle. The free versions will always stay free, but they won't have additional material.

Now here's where the course [Proven Self-Publishing](#) complements [WRITE TO PROSPER](#)

Combine these with [Kindling](#) by Geoff Shaw, and you've got yourself a winning combination.

## What's in the pipeline?

eBIZ EYE ON THE PUBLIC DOMAIN

LOCAL WEB PROFITS PLAN (a big eBook)

Creation of at least 5 reports from the Categories in my NTHB Blog posts.

This takes us to a great opportunity.

## Create products from Blog posts

I'm at an advantage using the blog platform in my Sandvox website software. It's very easy to create various Categories under which I create blog posts or articles. Click on [NTHB BLOG tab](#) in the top bar of New Times Home Biz and you'll see what I mean.

By assembling the posts into categories I almost have ready-made products that I can sell. All that's needed is to assemble the posts together into a single document (make sure they co-relate), format it for Kindle, and then put it into the Kindle marketplace.

Well, there's a bit more to it, but not much more.

Now, if you have a blog - and it doesn't matter whether it's Wordpress, Typepad, Blogger, Tumblr, or whatever - the first thing you should do is create some general categories and then assign your posts accordingly.

If you would like more information, get in touch with me, and if there's enough interest I'll create a video or two using my latest video creation acquisition. For its low cost, this is a game changer in terms of presentation.

More about that in the next issue.

## Making the world a better place

There's one way we can make a big difference to people in need and that's to make a small loan. Loans as little as \$25 can change peoples' lives.

My aim is to get 100 Kiva lenders by the end of this year. Will you be one of them? Can you lend just \$25?

Find out more about Kiva at ... [www.Kiva.org](http://www.Kiva.org)

And then please join my team by following these steps;

Step 1: At <http://www.kiva.org/> click "Teams".

Step 2: Enter the search - **Make Their New Times** - in the field "Search for your favorite teams" and click "Search Teams"

Step 3: Click "Join Team".

Step 4: Register with Kiva to create an account. Upload your photo if you wish.

Step 5 : Log in and make your first loan. Make sure it's with **Make Their New Times**.

I'll be grateful, and so will Kiva.org and the people receiving your loan. And also, if you join you're then able to make a gift to someone - a family member, friend, relative, workmate - with a \$25 Kiva card which can then be used for a loan.

## And now to sign off ...

That's it for now for this digest. I hope there's something in this issue that you can profit from. I'd sure like to get your feedback, so here's where to send it. Many thanks if you do.
